

January 30, 2025

## MEMORANDUM

FROM: United Way of Greater Rochester and the Finger Lakes

SUBJECT: Official Statement on Executive Orders (January 30, 2025)

We are incredibly grateful that the Office of Management and Budget has rescinded its call for a pause on federal assistance. Federal funding is essential to the nonprofit sector's ability to provide services to our local communities and without it would have impacted all of us.

We are continuing to closely monitor, convene partners, and share resources with our network in this rapidly evolving landscape.

The National Council of Nonprofits has created a resource that provides regular updates on executive orders impacting nonprofits. You can access this timely resource here: <https://lnkd.in/gXrv-VwD>

Your United Way has existed for over 100 years. Together, we have seen many community challenges and changes, and through it all, our mission has remained the same: to ensure that every individual in every community has the opportunity to thrive. That is the work we are committed to and will continue to do long into the future.
